

Lucille whined softly after having traversed in the forest for several hours without finding her way back out of there, what was meant to be a quick walk turned into a fight to figure out what way she entered. She did not seem to have taken notice of the other changes that certainly helped with making it harder for her to get back out of there. At least not until the ground was shaking slightly and something incredibly large was moving towards her.

Cysh sniffed a couple of times in the air, she could smell the human spirit somewhere, the forest that belonged to the foxgirl had a tendency to do strange magics on any human that dared to enter, and this time it had chosen to shrink its victim to give time for the foxgirl owner to get there. It didn't take too long before the hands of the foxgirl crashed down on each side of the tiny girl and the large grinning face was in full view.

"Well hello there...Such a cute little human you are, but I guess you are in my domain now, are you not? You should have taken a left by the river, but not that it matters anymore since you are mine." The foxgirl giggled out as she grabbed the small girl, getting back on her feet she held the girl in the palm of her hand and took a good look over here, the large fingers kind of playing around with her small body as well.

The hand moved upwards until the girl was right in front of the foxgirl's face, the tongue sticking out before dragging over her body. At her current size the tongue was easily able to slobber her body with its drool, and the tip of it moving all over her small body, even pulling off her clothes with little effort and leaving her naked in the hand.

"Ooooh, you got something extra I see, fun!" Cysh exclaimed as she took notice of the cock between her legs, not that the foxgirl wasn't used to such things, considering she herself could easily get one as well, but she found it amusing when seeing a small human girl having one like that. The tip of the tongue changing its focus from prodding against her face to instead poking and playing around the little cock of the human.

Lucille letting out several soft sounding moans from the pleasure the tongue was giving her, raising up her hands to push and try to fight it, though realizing that she had no chance in hell to actually defeat the giant foxgirl that had her she submitted to her fate of being toyed with by a simple tongue.

"Your futile attempts at getting away from me are cute, miniature human, but I'd suggest you stay still before I do something terrible to you." She stopped licking the cock for a moment just so she could show off the sharp fangs, basically using fear to make her more docile, though she quickly returned to pleasuring her again, the poor girl pretty much drenched in the saliva by now like she was bathing in it.

A bit of precum was already dripping from the cock, rather quickly but considering how much more that giant tongue could do compared to what another tiny girl could do it made quite a bit of sense, the tip of the tongue even smacking against the cock, a bit roughly but still it had quite the pleasuring effect when she did. The foxgirl even murring softly as she was lapping until the teensy dribbles of pre the girl was giving her, the lapping tongue making sure to focus on that sensitive cocktip though.

Though the foxgirl had other things in mind as well, wanting to end this she went from just using the tip of her tongue to slowly drag her whole tongue over the front of Lucille's body in the end, the small girl crying out and wiggling in the constant pleasure of that slightly rough foxtongue dragging over her body, and it did not take many licks from Cysh before Lucille's little cock spurted out some ropes of thick gooey cum onto the large wet surface.

Cysh pulled her tongue away, letting Lucille see the small globs of cum on the surface of the tongue before it was pulled back into the mouth and Cysh made a huge deal out of swallowing it like she had been giving some normal sized, to her at least, cock a blowjob.

"Now...Your turn!" Cysh said with a little laugh, shifting her position she placed her butt down on the grass before pulling her hakama away to reveal what she had hidden underneath it, and to Lucille's slight surprise it seemed the foxgirl was also packing quite a bit, and considering their differences in size the cock of the foxgirl seemed like it could easily swallow up the small girl.

With a wink Cysh lowered the girl towards the tip of her cock, pulling on the foreskin a little she let her drop onto the sensitive skin of the head, the tiny Lucille squeaking out and grabbing onto the skin, not wanting to fall down even further. Now Cysh could happily start jerking off with the help of the tiny girl, Lucille didn't even have to do anything else other than being rubbed up against the sensitive skin whenever Cysh's hand pulled the foreskin back up over it and covered her under it.

The moans of the foxgirl could be heard every now and then, on top of that there was already precum slowly drooling out of the opening just a little further above Lucille. The globs soaking her tiny form, mixing up with the saliva from the earlier licking. The tiny girl tried to climb up, though this was a bad move as when she reached the tip of the cock she actually managed to get her foot stuck in the slit.

Cysh could certainly feel this, and heck feeling something like that pushing directly into her slit was an even better feeling than when she was simply rubbing up against the skin, now she was doing that as well as pushing inside of her cock. The foxgirl arched her back a little bit, closing her eyes and releasing quite the load, at least this helped pushing Lucille free from the cockslit, but she was launched into the air together with the load and splattered against the fabric of the hakama laying on the ground below.

Lucille was disoriented for a moment, slowly trying to crawl away from the heavy goo laying on top of her, though it didn't seem to do her any good as the bliss of the orgasm had already passed for the giant naughty foxgirl. She reached out to pick her up and lifted her up in front of her face again.

"Well, seems you have done your job...Didn't expect what you did, but hey I loved it!" She stated with a wide smile, before the lips parted in front of her and the tongue stuck out as well. "Aaaah..."

She slowly moved Lucille closer, the fingers let go when Lucille was close enough to the tongue, landing with a bounce upon the soaked surface. She could feel the roughness of the tongue with her hands, rubbing over it a little bit, though not given much more chance

before the foxgirl pulled the tongue back into her mouth. She didn't make much deal out of flicking her back towards her throat and swallowing her either. All Lucille could hear was a loud gulp before being pulled away.

Thus, the last thing Lucille could see was Cysh's lunch from earlier...which had already turned into goop by now.
